

Elephants

Title

Written and Illustrated by

Alexis

What Elephants Look Like

Elephants are gray. They have big tusks. They also have a trunk to eat grass.

Where Elephants Live

Elephants live in Africa and Asia.
The place in Africa is known as
the savanna. Elephants live in
forest too.

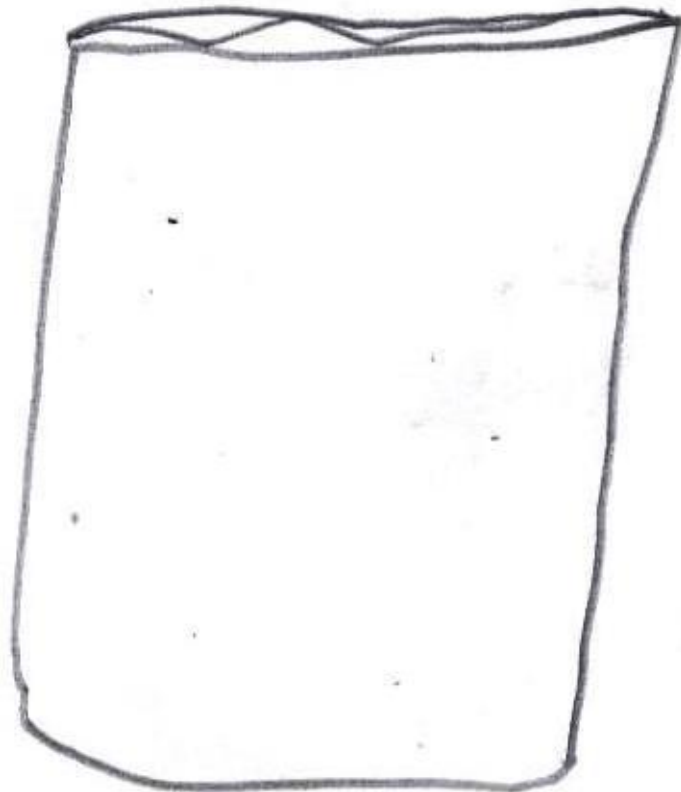

Living in a Herd

A herd has 3 or 4 adults in it. Sometimes herds have more than 200 elephants in it. The oldest female leads.

Elephant Teeth

Elephants have the biggest teeth of all land animals. Its teeth are cool!

Trunks

An Elephant's trunk is its most valued thing. It would not survive without it. Trunks are really amazing.

What Elephants Do

Mostly elephants move to places in herds.

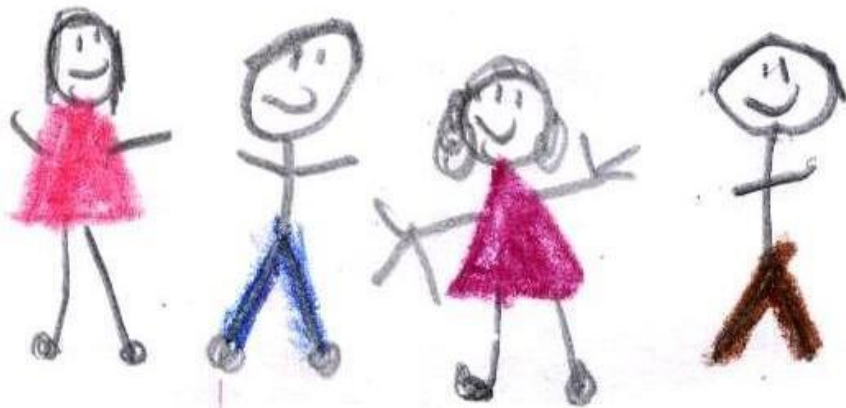

Elephant in Danger

During the 1970's and 1980's, thousands were killed just for jewelry and ornaments.

What's Different

Now many elephants are being saved in the this world.

What Can We Do

We can make elephants live and make a difference and more elephants will live.
