

My Dog Donut

By J.J.

I have a dog named Donut! She is a bull dog. She is a puppy and loves to play.

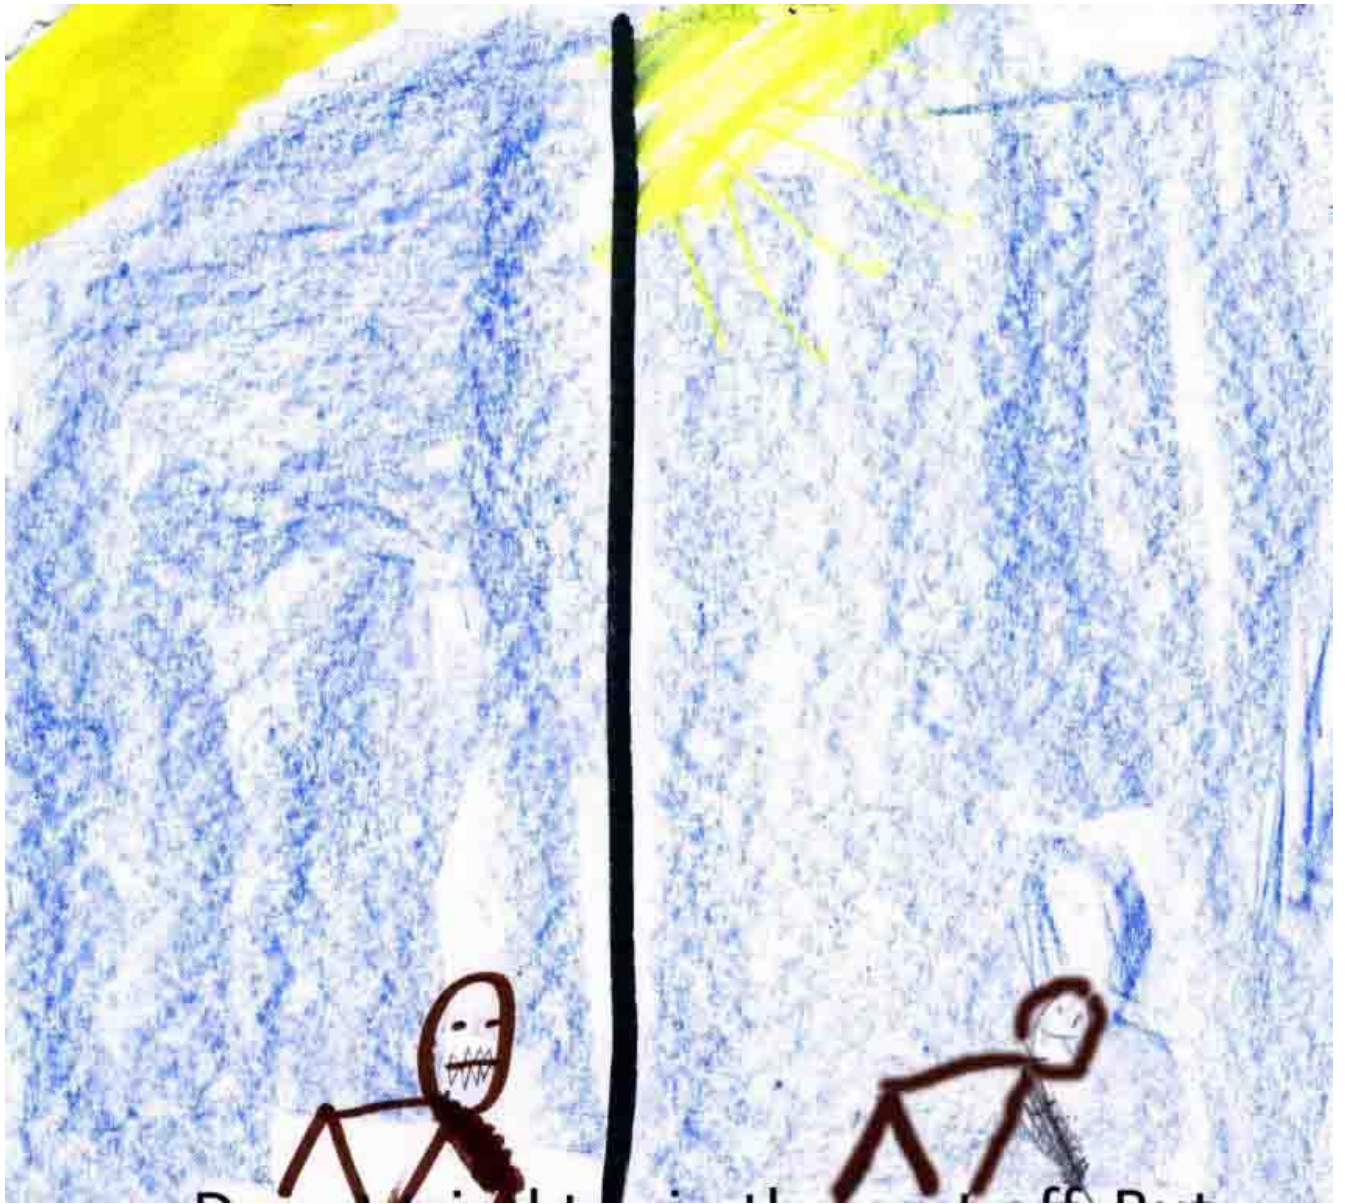

One day she was playing outside in the back yard. My mom went outside and was petting Donut by the fence. But Donut whimpered. Donuts foot was stuck in the fence!

My mom pulled Donut's paw
out of the chain link fence.
Donut's foot was swollen up.
Mom had to bring the dog to the
vet.

The vet looked at Donut's leg and x-rayed it. It was not broken. But it was sprained really bad. The vet put a cast on Donut's leg. It cost \$260!

Donut tried to rip the cast off.
But she just remembered that it
didn't make her leg hurt.

Her foot and leg feel better and she is playing again, but not by the fence.
