

Journey to

Mars

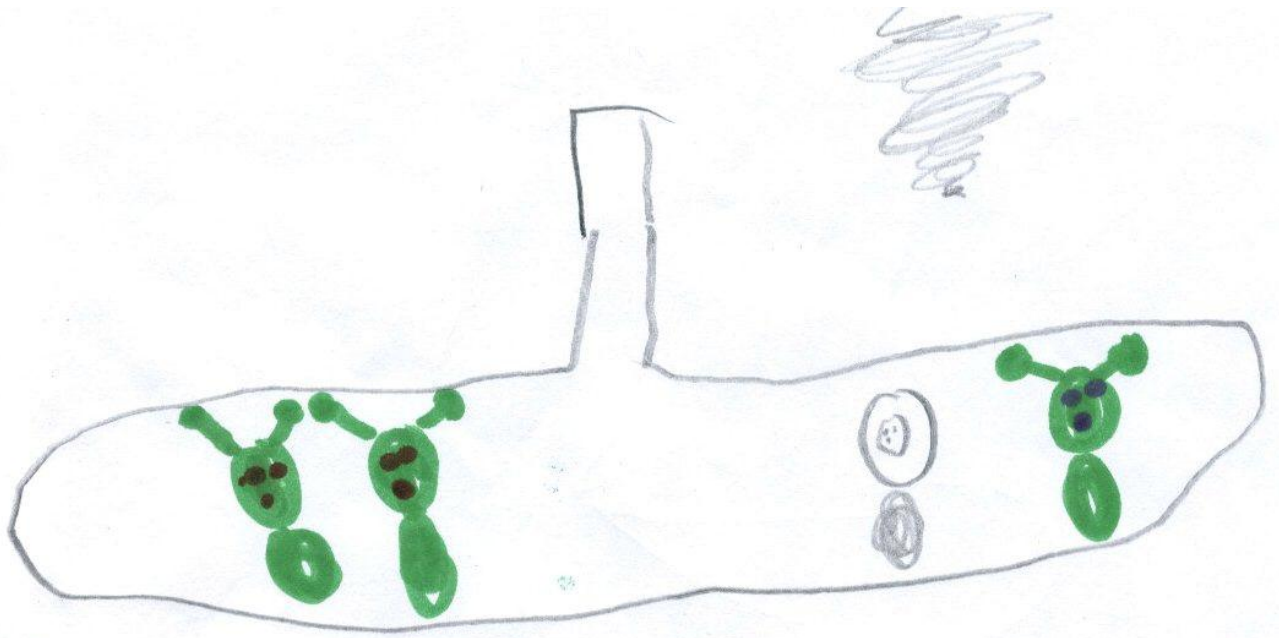

My name is Calvin. I am an astronaut. I am going to Neptune. I discovered all the other planets with my alien friend. His name is Pal!

Oh no, I landed on the wrong planet. This must be Mars. I have already been to this planet. I think the gas ran out of my rocket.

I said, "Let's go exploring, Pal!" Then Pal saw a twister. Pal said, "Uh oh, Calvin, Calvin, a twister is coming!" Pal tells me to run and find a hole.

We got away from the twister. Pal found two new friends. But I didn't know which one was which. But then I noticed the ones on the other side of the wall had brown eyes. Pal had blue eyes.

We became friends with the other aliens. They gave us gas to get home. Wow!! That was a fun journey.
