

# The Talking Cupcakes

by Jade

Once upon a time there was a scientist named Angel. She was pretty smart. She only had one problem. She was lonely.

But one day she got an idea. Angel said, "I'll make a formula that will make anything talk and won't be lonely."

So she went straight to her lab.  
She got the ingredients and started  
mixing them. Finally she was done.

She was going to do a sundae. But she tripped and it went on the cupcakes. They suddenly talked. She was amazed. Then she thought that she would never lonely again.

Little did she know that the cupcakes would never stop talking day and night, and would scream if they had no one to talk to. She had created monsters.

To be continued in Revenge of the Talking Cupcakes
