Persisting Grandeur

By Dallin

“Oh I’m never going to get this!” Grandeur exclaimed.

“Don’t worry,” Magnificent said. “You will.”

Grandeur who was an earth Elite frog was trying to shoot a rock out of her mouth. Magnificent had already mastered hurling water out of her mouth. Suddenly they heard a crash and screamed.

“What was that?” asked Magnificent

“I don’t know,” Grandeur replied. “Let’s go.”

“Ok,” Magnificent said.

When they reached Frogtopia, it was being destroyed by a Lizard with a poisonous barb at the end of its tail.

“Have you ever seen anything like it before,” Magnificent asked.

“No,” Grandeur replied.

“Well time to get cracking,” Magnificent said.

Suddenly water burst out of her mouth and the water knocked the lizard over into the small frog sized

river. The lizard stabbed a fish in the pond with his tail and flung it at Magnificent, knocking her over.

“I have to help,” Grandeur said to herself.

So she opened her mouth, nothing happened.

The lizard treaded towards Magnificent. It licked it's serpent like tongue across its razor sharp teeth.

Magnificent laid on the ground frozen with shock.

I have to try harder or Magnificent is doomed she thought.

She tried again with no results. The lizard bent down to chomp Magnificent.

“I CAN DO THIS,” she said to herself. She focused with all her might and finally rocks shot out of her mouth.

The rocks plummeted down on the lizards head and knocked him over onto some jagged rocks.

“Wow,” she said.

Then she formed an axe with the rocks and cut the lizards tail. The lizard screamed with agony and with a last painful scream it died.

“Are you ok,” Grandeur asked Magnificent.

“Yes,” she replied. “That was awesome what you did.”

“I just tried my hardest and it happened!” Grandeur exclaimed.

“That means that you are persisting,” Magnificent said

“What’s that,” asked Grandeur.

“It means that you try over and over again until you get it,” Magnificent replied.

“So what do we do next?”

“I don’t know something so that we can learn the habits of mind,” Magnificent replied.

“Ok then,” Grandeur said.

So they set out on an adventure to learn the habits of mind.
